THE GREATEST STEAKHOUSE STEAKS

dunbia

Towers Thompson and Dunbia have joined forces to bring you a premium quality beef brand, Stockman's beef.

Based on a strict selection process, exacting standards and the latest processing techniques, Stockmans represents high quality beef with a premium quality taste.

All Stockman cattle are individually selected by highly trained procurement specialists to very demanding specifications, which ensures only animals of specific weights, grades and fat coverage are selected.

All Stockman cattle are processed in a state of the art facility using traditional butchery techniques. The carcasses benefit from electrical stimulation and a chilling regime which maximises the flavour and tenderness of the product.

Stockman's processes have been developed to provide both you and your customers with a beef brand which you can rely on for consistent quality and taste.
